# Trust Your Bride!

Finding her Dream dress can be  
really be EASY!

Her body holds the wisdom-- let's  
empower her to  
listen to her internal guidance  
system.

Let's honor HER TRUTH, and we'll  
find what resonates with her!

# High Vibe Tribe Tips

## #1. Let us do the work- You can just relax and enjoy!

We know EACH gown well, and will be pulling ALL of the dresses for her!

We have them organized by size and price, and like to keep our shop tidy. Thanks for helping us with that!

## #2. Let HER share her opinion FIRST!

ALWAYS let the bride weigh in first before giving your opinion.

This is so we get her unbiased feel... after all, it's HER body in the dress and she knows how it feels on!

## A - Line

A-line dresses are flattering and emphasize the waist, while flowing over the hips giving an ethereal effect. Easy to dance the night away in style and comfort!

## Ball Gown

Ballgowns are perfect for a bride who likes wow factor. They have a dramatic full skirt and structured slimming bodice.

## Fit & Flare

This gown shape is ultra-flattering, hugs you in all the right places, and flares at the low hip. Choose this gown shape to highlight your curves!

## Sheath

Sheath gowns fall straight from the hips gracefully, perfect for a modern look, more informal gatherings, or outdoors weddings.

# Dreamy Dress Alterations

We love customizing our gowns! The most popular design changes on our extensive off-the-rack inventory are:

- Lowering or building up a neckline or back
- Adding or removing sleeves
- Minimizing or adding to the "poof" level in the skirt.

## Timing

We love to start the alterations process around 2-5 months before the wedding date, depending on your gown's complexity!
